

PANORAMIC ROMANTIC PICNIC AMONG OLIVE TREES AND THE SEA

THE EXPERIENCE

The experience begins in the late afternoon, as the daytime heat gives way to a pleasant hill breeze. Upon arriving in the Pisan hills, guests are guided along a very short path to reach a secret, private spot located within an ancient olive grove. From this location, the view extends across the silvery slopes of Tuscany until it meets the sparkling blue line of the sea on the horizon.

A magical setting awaits the couple, which is already fully set up and prepared with great attention to detail. A large blanket is placed on the grass, made comfortable by soft cushions, while a traditional wicker basket holds the evening's offerings.

The Toast and Local Delicacies

As soon as the couple settles among the cushions, the first activity focuses on relaxation: a welcome toast is served along with a selection of fresh appetizers that highlight Tuscan flavors. Guests will taste the delicacies and specialties of the local area.

Meanwhile, the daylight begins to shift. As the sun descends toward the sea, it colors the landscape with warm shades ranging from orange to antique pink, making the olive leaves shine like silver threads.

The Magic of the Sunset and Local Wine

As the sun sets, the atmosphere becomes even more intimate. The experience continues with a tasting of still wine from the Pisan hills, such as a velvety red or a fresh white, this is ideal for accompanying the rest of the dinner and the small snacks remaining in the basket.

As the sun touches the distant waterline to create an unforgettable sunset, candles are lit to enjoy the final glows of a beautiful day.
